The Board of Agriculture and Fisheries, by virtue and in exercise of the powers vested in them under the Diseases of Animals Acts, 1894 to 1914, and of every other power enabling them in this behalf, do order, and it is hereby ordered, as follows :—

Restriction on Importation of Dogs.

1 (1) An imported dog that is to say, a dog brought to Great Britain from any other country, except Ireland, the Channel Islands and the Isle of Man, shall not be landed in Great Britain unless its landing is authorised by a licence of the Board previously obtained, and when landed it shall be subject to the provisions of this Order, and to the conditions inserted in any licence authorising its landing

(2) The provisions of this Order shall also apply to a dog taken from Great Britain, Ireland, the Channel Islands, or the Isle of Man into any port in any country (except Great Britain, Ireland, the Channel Islands or the Isle of Man), as if the animal were an imported animal, unless it is shown to the satisfaction of the Board that the animal has not been landed in that country and that while on Board it has not been allowed to come in contact with any dog or other canine animal from that country, and unless the landing of the animal in Great Britain is authorised by a licence of the Board previously obtained.

Detention and Isolation of Imported Dogs.

2 (1) An imported dog shall, for a period of four calendar months after its landing, be detained and isolated at the expense of its owner upon premises in the occupation, or under the control, of a veterinary surgeon, which shall have been previously approved in writing by the Board for that purpose, and such premises are in this Order referred to the "place of detention."

(2) During the said period the dog shall not be moved from the place of detention except to another place of detention or to a vessel for exportation, and in either case only with a licence of the Board authorising such movement.

(3) This Article shall apply to (a) an imported dog which is shown to the satisfaction of the Board to a *bona fide* performing dog, or (b) an imported dog which is intended to be exported from Great Britain within forty-eight hours after its landing, only so far as its provisions are applied by way of conditions inserted in the licence authorising the landing of the dog.

(2) Such provisions may be inserted in the notice as the Board may think necessary or desirable for any of the purposes mentioned in the preceding Article.

(3) The operation of a notice under this Article may be terminated by notice to that effect given by an Inspector or other Officer of the Board or of the Local Authority to the owner or person in charge of the dog, on proof to the satisfaction of the Inspector or Officer that the dog was not landed in contravention of the said Orders, or that four calendar months have expired since its landing.

(4) If that owner or person in charge of the dog, after receipt of such notice, fails to move the dog as required by the notice, he shall be deemed guilty of an offence against the Act of 1894.

Withdrawal of Licence in cases of Default.

5. (1) If an imported dog is not detained and isolated in conformity with the provisions of this Order or of the conditions or provisions of a licence or notice issued thereunder, the Board, or an Inspector or other Officer of the Board, may give notice to such owner or person in charge, requiring him to move the dog to a vessel for exportation within a time specified in such notice.

(2) If the owner or person in charge of the dog, after receipt of such notice fails to move the dog as required by the notice, he shall be deemed guilty of an offence against the Act of 1894.

Seizure of Dogs in case of Default.

6 (1) If an imported dog is not detained and isolated as required by this Order or by the conditions or provisions of any licence or notice thereunder, an Inspector of the Board may seize the dog, and thereupon the Board shall detain and isolate it at the place of detention specified in the licence or notice, or any other place of detention selected by them, in accordance with the requirements of this Order or the said conditions or provisions, at the expense of the owner of the dog.

(2) If the owner of the dog does not, within ten days after the expiration of the period of detention specified in this Order or in the licence or notice, claim the said dog from the Board and pay to them their expenses of detaining and isolating the dog, the Board may destroy or otherwise dispose of the dog as they think expedient.

Re-landing prohibited of Imported Dogs moved to Vessels for Exportation.

NOTIFICATIONS.

Fort St. George, January 22, 1915.

No. 13.—In paragraph 2 of the remarks against item (3) under "N. Public Works Department," in the table appended to article 3 of the Public Service Notification published on pages 787 to 801 at Part I-B of the *Fort St. George Gazette*, dated the 8th December 1915, the words "or the Sub-overseer and Surveyor class" shall be *inserted* between the words "Engineer subordinate or Overseer class" and "or the Draftsman class".

Fort St. George, January 28, 1915.

No. 14.—A State technical scholarship will be awarded in this Presidency during the current year for the study of architecture and town planning. Candidates desirous of prosecuting the study of this subject should submit their applications for the scholarship to the Director of Public Instruction so as to reach him on or before the 1st March 1915.

2. Other things being equal, preference will be given to graduates in engineering.

3. Ordinarily the period for which these scholarships may be held is two years, but in special cases it may be increased to three years or reduced below two years. The value of the scholarships has been fixed at £150 sterling a year, but if in any particular case this amount is found insufficient, the Government will be prepared on good grounds to consider its enhancement. The scholarships are tenable in Great Britain and, with the approval of the Secretary of State, in a foreign country.

4. The holder of the scholarship will not be bound by any engagement to serve the Government on the completion of his course, nor will the Government be bound to employ him. He must generally depend upon his own exertions to make his living on his return to India and must not ordinarily expect to be taken into Government service. In selecting candidates, the Governor in Council will be guided by considerations of capacity, character and practical interest in the subject selected, and the assurance that the candidate will continue to devote himself to that industry on his return to India. No age limit is laid down for scholars. The course of study to be followed, as well as the place in which it is to be prosecuted, will be settled by the Secretary of State when a scholar arrives in England. Other conditions under which the scholarships are held are—

(1) that the candidate is a native of India as defined in section 6 of the Government of India Act, 1870, viz., "a person born and domiciled within the dominions of His Majesty in India, of parents habitually resident in India, and not established there for temporary purposes only";

(2) that he has the consent of his family (*i.e.*, of his father or guardian) to proceed to Europe or America;

(3) that his character is good;

(4) that he has sufficient knowledge of the English language; and

(5) that he is physically fit to undergo the course of life and study that he will have to follow.

5. The following rules have been framed by the Secretary of State for the guidance of Indian Government technical scholars in England:—

RULES.

(1) The Secretary of State considers it desirable that all Government scholars should avail themselves of the information and advice which the Educational Adviser to Indian students is in a position to give them, and these rules are framed with that end in view. Government scholars, equally with private students, may consult the Educational Adviser upon any question and will receive from him all possible assistance, and the Secretary of State hopes that they will communicate with the Educational Adviser, not only on the occasions when they are directed so to do in these rules, but also in any circumstances of difficulty and whenever they desire advice or information. Scholars will be regarded as being under the supervision and charge of the Educational Adviser, to whom they should in all cases address any communication they may have to make, and to whom also all reports or other communications having reference to scholars should be sent. The Educational Adviser will bring to the notice of the Secretary of State on behalf of any scholar any question requiring his decision and will communicate to the scholar the orders passed by the Secretary of State.

(2) Every scholar should, on reaching England, at once call on the Educational Adviser[1] and report his arrival in writing. He should leave his address with the Educational Adviser and intimate to him from time to time all changes therein.

(3) Every scholar should, without unnecessary delay, inform the Educational Adviser to which University, college, or other institution he is about to proceed, and should at once take steps to enter himself at the institution finally selected with his approval.

(4) Every scholar must, within four weeks of reaching England, submit to the Educational Adviser, for the approval of the Secretary of State, a statement showing the general course of study he proposes to follow to carry out the objects of the scholarship granted to him; and he should, during his first college term, submit a further statement showing as accurately as possible the details of the total cost of such course of study. This latter statement should in every case be prepared in consultation with the principal of the college or institution at which the student is entered.

The course approved must not be changed without the sanction of the Secretary of State.

(5) Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

(6) Every scholar will be required to keep a concise daily diary, to be certified by the authority under whom he is working, and to be submitted at the end of each term through that authority to the Educational Adviser and to the Secretary of State for transmission to India. He must also submit, in the same way, from time to time, full notes of the work on which he is employed.

(7) Scholars will be expected to continue their studies during the summer vacations of the institutions where they are working, with the exception of three weeks in each year. Vacation study should, when possible, take the form of practical work.

(8) Applications giving a detailed programme of the vacation work the scholar proposes to do, accompanied with a complete estimate of any extra expenses for fees and travelling, must

[1] The Educational Adviser's office is at 21, Cromwell Road, South Kensington, S.W.

be sent in through the principal of the institution or the professor under whom the scholar is working before the end of the month of April. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during the time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

(9) Every scholar must, at the end of each term of residence at a University or college, submit to the Educational Adviser a certificate from the proper University or college authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

(10) Every scholar must at all times obey such instructions as he may receive from the Secretary of State either directly or through the Educational Adviser.

(11) Subject to a due compliance with the above conditions, the allowance, at the rate of £150 a year for two years, or three years if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England. The first payment will be £37 10s. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University, college, or institution during the same period or any part of it, but not in respect of University or college fees, the cost of which will be separately defrayed by the Secretary of State. Fees for private tuition are not defrayed by the Secretary of State unless previously sanctioned by him.

The necessary travelling expenses of scholars, by second class, or by third class if no second class be available, will also be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Educational Adviser.

Deposits and other charges which are part of the regular fees exacted by the authorities of the educational establishment in which a scholar is working will be paid by the Secretary of State; but charges for books, instruments, hotel bill and medical attendance must be paid by the scholar himself (any refund of a deposit must be repaid to the Secretary of State).

(12) No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the *previous* sanction of the Secretary of State for India to such expenditure. (This does not apply to necessary travelling expenses referred to above.)

(13) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under rule 4, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declines to return to India in accordance with the undertaking mentioned in rule 5, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

(14) At the expiration of his scholarship a scholar is provided by the India Office with a free second-class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary of State. All communications on this subject are to be made to the Educational Adviser.

(15) Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

P. RAJAGOPALA ACHARIYAR,
Secretary to Government.

In all districts except Ganjam, Vizagapatam, Godavari, Kistna, Guntur, Kurnool, Madras, Tinnevelly and South Canara.	Throughout the Presidency.	Throughout the Presidency.

Arrack and ganja wholesale depot licenses will be issued for all districts. Particulars regarding them will be found in clause XVI below. A separate notification will be issued regarding fixed fee foreign liquor licenses.

III. A deposit must be made by each bidder previous to bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 50 will ordinarily be required from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 50 or less and to Rs. 5 in the case of bidders for single small shops. In the Kurnool district, the officer conducting the sale may, where he finds it necessary, require a deposit of Rs. 10 only from bidders for arrack shops. In the South Canara district, the selling officers may at their discretion reduce the deposit to Rs. 2 for shops whose average monthly rental does not exceed Rs. 2.

IV. The shops will be put up to auction in the order in which they are notified, unless the selling officer sees reason to change that order. Upset prices will be fixed at the discretion of the Collectors. The reserve price placed by Government on the shops will not be published, but the average of the previous five years' rentals will be notified by the Collectors wherever possible, for the information of bidders.

V. No person will be allowed to bid for another unless he holds a power-of-attorney from him.

VI. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of a license or of a contract under the Abkari / Opium Act as to render him undesirable

as a holder of a license or on the ground that he is insolvent or to prevent arrangements to the detriment of Government interests or for any other valid reason He may also refuse any bid which he may consider to be purely speculative, after recording his reasons for doing so. Village officers* will not be allowed to bid for, or to have any direct or indirect interest in shops for the sale of intoxicants.

VII The shops will be knocked down to the highest bidder, but the sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid, unless revised by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any other officer appointed by him

VIII In case of dispute the selling officer's decision shall be final. If for any reason the highest bid is rejected, the next highest shall be taken, or the shop re-sold at his discretion.

IX At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. As the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit† of half a month's rent (in addition to the deposit made under clause III) for each shop unless the initial deposit equals or exceeds two months' rent Should he fail to do so, the deposit made by him under clause III will be forfeited and the shop will be put up again immediately by the selling officer on the above condition or otherwise disposed of by the Collector and the defaulter will be debarred from bidding again for the same or for any other shop.

X. Persons to whom shops have been knocked down and who have made deposits as provided in clauses III and IX shall also deposit† such further sum as with the former deposits will make up two months rent (to be paid within ten days from the date of communication of the Collector's acceptance of the bid) and shall without unnecessary delay execute the necessary engagements and take out licenses on the conditions hereinafter set forth. In the case of the purchaser's death after signing the agreement, it will be binding on his heirs and assigns. Should the initial deposit exceed two months' rental, the excess will be refunded unless the purchaser is required to deposit twice that sum under clause XI *infra*

XI. If on enquiry subsequent to sale the purchaser shall be found to be of doubtful solvency, he may be required either to deposit two months' rental in addition to the sum prescribed in clause X *supra*, or to get a surety or sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. The bond shall be stamped (article 34, schedule I, Act II of 1899) and registered at the expense of the purchaser if the amount secured exceeds Rs 1,000.

XII On the failure of any person to make deposit under clause X or to comply with the requisition under clause XI *supra* or to execute engagements and take out licenses as aforesaid, the deposits already made may be forfeited and the shop re-sold under the orders of the Divisional Officer on the dates notified by the Collector or otherwise disposed of by the latter officer.

XIII. Re-sales effected under clause XII will be at the risk of the defaulting bidder, who will forfeit all gain, and, in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case the forfeited deposits will be deducted from the loss arising from the re sale, and the remainder, if any, will be recoverable from the defaulter in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposits be greater than the loss by re-sale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the privilege is disposed of otherwise than by re-sale and such disposal results in loss to Government as compared with original sale

XIV. The purchaser of the privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him

XV. The deposit referred to in clause X or clause XI, as the case may be, will be taken as security for the due performance of the conditions of the license. If the Tahsildar ‡ and the licensee so agree, it may be credited towards the last instalments of the kists payable by the latter.

Condition of Issue of Licenses for Wholesale Vend of Arrack and Ganja.

XVI. Applications for the privilege of the wholesale vend of country spirits and of intoxicating drugs prepared from the hemp plant should reach the Collectors concerned on or before the 1st March 1915 and each should be accompanied by a fee of Rs. 15 which will be returned to those persons whose applications for licenses are not approved. The grant of licenses confers no exclusive privilege, and it will be open to the Collector to grant licenses under like conditions to other persons at any time during the currency of the licenses for which applications are now invited. Licenses for the wholesale vend of arrack will be granted to private persons only if they have obtained the consent of the arrack supply contractor of the district to the opening of their depots and deposited such amount as may be required by the Collector as security for the proper fulfilment of the conditions of the license. If such depots are not worked to the satisfaction of the Collector, they may be closed at any time. Arrack wholesale depot licenses will not be granted to persons having interest in retail shops.

The licenses issued under the above clauses will contain the following general conditions common to all abkari and opium licenses and the special conditions prescribed below for any particular kind.

Contract suppliers of country spirits are prohibited from holding within their contract areas any interest in the retail vend of arrack or in the vend of other intoxicating liquors such as toddy, foreign liquor and beer, and from employing any person who has such interest. * This order is not intended to debar relatives of village officers from holding abkari and opium shops which are not situated in the area or which do not supply villages in which the village officers themselves are employed.

† Deposits may be in cash or other approved security. ‡ Includes Deputy Tahsildar in independent charge

2. The limits within which sales under any abkari or opium license may be carried on will be specified by the Collector at the time of the grant of the license. The sale or possession (except subject to the rules applicable to unlicensed persons) of liquor, opium or intoxicating drugs outside those limits is prohibited

3. Sales must be conducted in a suitable building of which the whole or part must be entirely set aside for use as a depot or shop. In shops which are clearly of a superior character private bars may be sparingly allowed by the Collector, under a special license to be granted by him free of fee, provided that the interior of the bar is wholly visible from the doorway and that the entrance to it is either through the main door of the shop or through a separate door clearly labelled, or provided with a proper sign-board to show its nature.

5. A sign-board must be affixed to the front of each depot or shop showing the nature and number of the license under which sales are conducted there, the name of the licensee and (except in the case of foreign liquor) the current rate of sale. These particulars must be legibly painted in the local vernacular and, in the case of taverns and wholesale depots, in English also. The license must be hung up in a conspicuous place within.

6. All liquor, opium and intoxicating drugs sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to opium and intoxicating drugs other to increase their intoxicating power or for any other purpose except the manufacture of intoxicating drugs in accordance with the terms of a license. No arrack shop, foreign liquor tavern or beer shop shall be opened before 9-30 A.M. in Madras or 9 A.M. elsewhere. Power is reserved to Collectors on the report of the Police or for other sufficient reasons to order the closure of any particular shop either in towns or in the country at 8 P.M. or even at an earlier hour, if they consider such a course to be advisable in the interests of the public.

9. No drunkenness, disorder or gaming shall be permitted in depots or shops. Entertainments of any kind in depots or shops are also strictly forbidden

Collectors or Divisional Officers shall have power also to close any shops temporarily in times of religious excitement or disturbance. Every depot and shopkeeper shall on his own motion close his depot or shop when there is riot or disturbance in the neighbourhood.

13. Collectors may order the transfer of depots and shops from one locality to another or their closure or the opening of new depots and shops within limits as to number to be fixed by the Board of Revenue in their discretion. But no new shops should be opened unless notice of the sites selected has been published in the District Gazette six months before the commencement of the license and no such changes as affect the interest of adjacent shopkeepers shall be made during the currency of a lease except under special sanction of the Board. Tahsildars may at any time permit the transfer of a shop within the limits confined for the shop in the sale notice.

14. The right is reserved to the Collector to grant "Occasional Licenses" for the sale of liquor, opium and intoxicating drugs, on the occurrence of fairs, festivals, etc., only in places in the vicinity of which there are no regularly licensed shops This power in regard to country spirits and toddy may also be exercised by Divisional Officers. Such licenses should be issued only when absolutely necessary and shall ordinarily be granted to the shopkeepers who usually supply the locality or to the representatives of the renter The licenses shall run only as long as they are actually required not exceeding ten days. Not more than one license shall be issued for a fair or festival without the sanction of the Board. The fees to be paid for the licenses shall be fixed at the discretion of the officers issuing them.

Note.—The restrictions in (a) and (b) do not apply to Native soldiers, their families and followers when they are absent on leave from their regiments.

15. No privilege of supply or vend shall be sold, transferred or sub-rented without the Collector's previous permission. Nor, if the Collector so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

17. No holder of any abkari or opium license will be allowed, without special permission from the Collector, to possess any interest in any abkari or opium license in any Native State or foreign territory or in any British territory wherein law rate of duty is in force and which is adjacent to the district in which he holds his license.

18. Depots and shops must be kept open unless their temporary or permanent closure is authorized under condition 12 or 13 *supra* and such supply of liquor, opium or intoxicating drugs as the Collector may consider sufficient to meet local requirements must be maintained therein. Shops not opened by dates to be fixed by the Collector shall be liable to be re-sold at the risk of the licensees.

19. No liquor, opium or intoxicating drug shall be sold in shops except for cash. The licensee shall be bound to give intimation of the offer of anything other than cash to the nearest Magistrate or Police officer. This condition is not, however, meant to restrict credit sales in the ordinary course of business by shopkeepers or firms of standing and respectability dealing in foreign liquor for consumption off the premises.

20. No liquor, opium or intoxicating drug shall be sold either below or above such minimum * or maximum † prices as may be fixed for sale of the same in accordance with the law for the time being in force.

29. Any sum due by a licensee may be collected * under the Revenue Recovery Act or adjusted from the deposit, if any, made by him at the commencement of the lease. He shall be bound to replace any sums adjusted from his deposit within fifteen days of receipt of notice from the Tahsildar †.

In the event of suspension of a license for failure to pay arrears, the privilege of sale will be re-sold with effect from the date of issue of license to the new purchaser or otherwise disposed of at the Collector's discretion. The licensee or his agent may also be prosecuted for the specific offence committed.

The rent for the whole lease shall become due at once, when a lease is cancelled under this condition.

Note.—For continuing breaches of a license, continuing fines may be imposed.

The purchaser of a privilege is liable to the penalties prescribed in this condition if he is convicted of any such offence as above contemplated after the confirmation of the sale of the privilege to him though before issue of a formal license. Forfeiture of any license under this clause shall involve forfeiture of the balance of all deposits after payment to Government of all sums due under the lease.

34-A. Any license may be forfeited and the privilege be re-sold or otherwise disposed of at the risk of the licensee if it is brought to the notice of the Collector that the licensee has been *previously* convicted before a Magistrate of any of the offences mentioned above. 35. Licensees are bound to report to the Divisional Officer all instances which come to their knowledge of persons employed by them in the manufacture, carriage or sale of liquor, opium and intoxicating drugs, committing breaches of the Abkari / Opium laws or of engagements entered into by them and to comply with the Divisional Officer's orders respecting the continued employment of such persons. No persons who have been convicted under the Indian Penal Code shall be employed in the carriage or sale of liquor, opium and intoxicating drugs without the Collector's previous permission.

36. Pecuniary dealings by licensees of any kind whatever with officials of the Salt, Abkari and Customs Department are absolutely prohibited.

SALT, ABKARI AND CUSTOMS DEPARTMENT.

NOTIFICATION.

No. 2, dated 6th February 1915.

NOTICE OF CONDITIONS OF ISSUE OF FIXED FEE FOREIGN LIQUOR LICENSES.

The following notification is issued in supersession of Notification No. 1, dated 20th January 1914, published in the Supplement to the *Fort St. George Gazette*, Part II, dated 20th January 1914

In exercise of the power conferred on him under section 4 (*j*) of the Madras Abkari Act (I of 1886), the Commissioner of Salt, Abkari and Separate Revenue hereby prescribes, under section 24 of the Act, the following rules for regulating the issue of licenses on fixed fees for the compounding, blending, bottling and sale of potable foreign liquors from and after the 1st April 1915 within the limits of the Madras Presidency:—

1. The term "foreign liquor" in these rules includes all wines, spirits and beer imported into the Presidency by sea or land; plain rectified spirits imported or locally made and on which the tariff rate of duty has been paid; all spirits manufactured or compounded in the country and made to colour and flavour to resemble gin, brandy, whiskey or rum (or spirits made in Malabar from cocoanut toddy, called "Malabar arrack") and excised at the tariff rates of import duty; and beer brewed in India or beer imported in a condensed form and afterwards converted into potable beer and duly excised, but excludes denatured spirits and ordinary arrack. In the case of licenses to Chemists, Druggists and other approved firms or persons, however, for the sale of pure rectified spirits only, the term "foreign liquor" means pure rectified spirits imported from foreign countries by sea or manufactured in this country and excised at the tariff rate of duty.

NOTE.—The minimum strengths at which imported and locally made foreign spirits can be sold are 25° U P for gin and 25° U P. for all other kinds of spirits excluding Italian arrack, except denatured spirits and Malabar, Coorg and Ceylon arrack.

"Native" beer is beer brewed in India (*a*) which contains at least two bushels of malt and two pounds of hops per hogshead and in the manufacture of which jaggery or crude cane sugar is employed, (*b*) which is brewed at a higher original gravity than 1,062° on a standard saccharometer and *c*) the maximum price of which at the brewery is Rs. 40-2-0 per hogshead including the excise duty of three annas per gallon.

2. Licenses for the sale of foreign liquors shall be of the following descriptions:—

I. *Wholesale licenses for the sale of foreign liquor not to be drunk on the premises.*—These will be issued on an annual fee of Rs. 100 at the discretion of Collectors. Under these licenses the sale of liquor in quantities less than two imperial gallons or a dozen reputed quart bottles or two dozen reputed pint bottles of each kind at a time is prohibited. The holders of this license will have the privilege of issuing to licensed dealers only samples of liquor in quantities not exceeding one pint. In Madras town, holders of this license will not be allowed to sell "native" beer.

II. *Retail licenses for the sale of foreign liquor not to be drunk on the premises by any person.*—These will be of two kinds—one for the sale of all kinds of foreign liquor, except "native" beer and the other for the sale of beer brewed in India.

(a) The former will be issued at the discretion of the Board and Collectors on payment of an annual fee of Rs. 200 in the town of Madras and in Cotacamund, Coonoor and Wellington, Rs. 100 in towns having a population of 25,000 and over and in Kodaikanal, Yercaud, Kotagiri and Cochin, and Rs. 50 in the rest of the Presidency. Under these licenses the sale of liquor in a quantity less than one reputed pint and greater than two imperial gallons in one transaction will be prohibited. In Madras the right of selling Colombo, Cochin or Malabar arrack for removal from the premises in bottles in quantities exceeding one reputed quart will be restricted to tavern-keepers who have taken out a special license for the purpose which will be issued on payment of an annual fee of Rs. 100, while the ordinary retail license holder will be allowed to sell any kind of foreign liquor except Colombo, Cochin or Malabar arrack and "native" beer.

(b) Retail licenses for the sale of beer brewed in India will be issued to successful bidders for beer shops on payment of an annual fee of Rs. 50.

III. *Hotel licenses for the supply of residents in hotels and boarding-houses.*—These will be of two classes at annual fees of Rs. 150 or Rs. 75 in Madras, of Rs. 100 or Rs. 50 on the Nilgiris, and of Rs. 50 or Rs. 25 in the rest of the Presidency, as may in each case be determined by the Collector. No liquor may be sold under these licenses otherwise than to residents in hotels and boarding-houses for their own use and that of their guests, or to casual visitors requiring liquor with the meal or meals supplied to them.

In Madras a holder of a hotel license desirous of setting up and maintaining in his hotel a "bar" or "bars" may, on payment of a monthly fee of Rs. 50 for a first-class bar or Rs. 25 for a second-class bar, be granted a separate license to be called a bar license. This will cover the sale of foreign liquor, except Colombo, Cochin or Malabar arrack, under the same conditions and to the same extent as the tavern license.

In Madras, special bar licenses will also be issued to others than holders of hotel licenses with the previous sanction of the Board of Revenue. The fees in such cases will be fixed by the Board and the licenses will entitle the holders to sell to all comers.

IV. *Refreshment-room licenses* will be of two classes—

(a) *For refreshment-rooms maintained by, or under the supervision and control of, railway companies and proprietors or managers of lines of dâk carriages for the supply on the premises of travellers by such railways or dâk lines.*—The annual fee payable for such license will be Rs. 50. Under these licenses liquor may be sold to travellers and persons served with regular meals in the rooms for consumption on the premises to any extent, provided that no more than one reputed quart of spirits or two reputed quarts of any other kind of liquor sold at the refreshment-room may be sold at one time to any such traveller for removal from the premises.

(b) *For refreshment-rooms in which the sale of liquor is ordinarily combined with the supply of meals or of eatables prepared and served in the European manner.*—The annual fee will be Rs. 500 in Madras and Rs. 75 in the rest of the Presidency. It will at all times be optional with the Collector to withdraw licenses of this description if it should appear that the sale of liquor to persons who have not partaken of meals in the refreshment-room is permitted to such an extent or so habitually that the refreshment-room may fairly be classed as a tavern. Sale of liquor for removal from the premises will not be allowed under these licenses. The premises to be used for the sale of liquor under these licenses must be at least of the monthly rentable value of Rs. 50 in Madras and in Cotacamund and Coonoor Municipalities and of Rs. 25 in the rest of the Presidency.

V. *Occasional licenses*, such as licenses for the sale of refreshment-stalls in connection with race meetings and public entertainments. These will be granted by Collectors at their discretion for periods not exceeding two days at one time and at such fees not exceeding Rs. 100 on each occasion as they may determine. No removal of liquor from the premises will be allowed under these licenses.

VI. *Special licenses* will also be granted by Collectors in consultation with the officers of the Salt, Abkari and Customs Department when the circumstances are such as not to allow of the issue of licenses of any of the above descriptions on such terms and conditions and for such periods as they may on each occasion determine.

VII. *Auctioneer's licenses.*—Annual fee, Rs. 5. The following are important provisions of this license:—

(a) Liberty to give sample bottles in respect of all consignments, whether trade consignments or the property of private persons, in order that intending purchasers may have the opportunity of testing high class wines and spirits at their own houses before the auction sale.

(b) Authority to sell wines, spirits and beer in less quantities than whole dozens of each description in the case of sales by auction of the property of private parties or estates or of trade consignments which are alleged or otherwise unmerchantable.

(c) Authority to sell by auction at places other than that specified in the license, viz., at any private residence at which the licensee may hold an auction.

---

* NOTE.—In places where there are beer shops, holders of retail licenses for the sale of all kinds of foreign liquor except "native" beer will be permitted to sell beer brewed in India on English principles only in bottles as bottled at the brewery at which it was brewed.

VIII. *Licenses for the sale of pure rectified spirits.*—These will be issued to Chemist and Druggist firms and other firms or persons specially approved by Collectors, on payment of an annual fee of Rs. 10. Under these licenses the possession of pure rectified spirits in excess of ten imperial gallons (or such larger quantity as the Collector may, in consultation with the officers of the Salt, Abkari and Customs Department, specially authorise) is prohibited. Pure rectified spirits must not be sold under these licenses for other than *bond fide* medical, industrial and scientific purposes, and the maximum limit of sale at one time to the same person is restricted to one reputed pint in the case of sale to a private individual, two reputed quarts in the case of sale to a Chemist, medical practitioner or scientific body and three imperial gallons to any Government, Local Fund or Municipal hospital.

IX. *Licenses for the sale, as tonic or medicine, of medicated wines and similar preparations* containing 20 per cent. and upwards but not more than 42 per cent. of proof spirit will be issued by Collectors on payment of an annual fee of Rs. 10.

3. *Licenses for compounding* $\frac{\text{or}}{\text{and}}$ *blending foreign liquors* will be granted to holders of wholesale licenses by Collectors and those for *compounding* to licensed distillers by the Deputy Commissioner of Abkari on payment of an annual fee of Rs. 250.

4. *Licenses for the bottling of foreign liquors, except beer brewed locally*, will be granted to holders of wholesale licenses by Collectors and to licensed distillers by the Deputy Commissioner of Abkari on payment of an annual fee of Rs. 50.

5. Any two or more of the above kinds of licenses may be granted to the same person for the sale of liquor in the same premises.

6. No premises shall be used for the sale of liquor unless and until approved by the Collector.

7. All orders passed by Collectors under these rules will be subject to appeal to the Board of Revenue, whose decision will be final.

8. All licenses (other than occasional and special licenses) will have effect for the official year, *i.e.*, from the 1st April in each year until the 31st March of the following year.

9. The fixed fees exceeding Rs. 50 on all licenses (other than special and occasional licenses) will be payable in two instalments, one half being payable when the license is issued and the other half at the beginning of the second half-year, *viz.*, 1st October.

10. For the convenience of the trade, Collectors will, so far as possible, receive and dispose of applications for licenses under clause IV (b) to have effect during the following official year before the tavern sales for that year. Licenses for the sale of liquor in mofussil refreshment-rooms should be very sparingly given.

11. All further information may be obtained and forms of licenses may be procured at a charge of two annas each at the offices of Collectors.

12. The Board of Revenue in the department of Separate Revenue will issue such subsidiary instructions as may be necessary to the carrying out of these rules.

Board of Revenue (Separate Revenue),
Chepauk, 6th February 1915.

Secretary.

HIS EXCELLENCY THE VICEROY'S SPEECH.

His Excellency the PRESIDENT:—"Since I last addressed you in September the British Empire, much to our general regret, has, through the intrigues and pressure of Germany and Austria, been plunged into a needless and useless war against Turkey. I believe that I am not wrong in saying that this is the first occasion in history that the British Empire has been at war with Turkey. As you are all aware, in the Crimean war England expended freely her blood and treasure to maintain the integrity of Turkey, while nearly 25 years later the disastrous Treaty of San Stefano, which would have destroyed Turkish power in Europe, was annulled solely by the threatened intervention of Great Britain. Since those days the policy of the British Government, as I am personally able to bear witness, has been to endeavour to strengthen the position of Turkey, and to induce her to seek safety from internal danger and external menace by the introduction of much-needed reforms into her administration. The advice of England, though frequently unpalatable, was at least disinterested.

"New evidence almost daily brought to light tends to prove the present war to have been a long premeditated and prepared aggression on the part of Germany and Austria, of which the infamous assassination at the Archduke Franz Ferdinand and his consort was merely the pretext but not the cause. When it broke out England had no quarrel of any kind with Turkey, and the British Government simply expected of the Turkish Government their observance of the ordinary principles of international law and the elementary duties of a neutral Power. I need not repeat here the breaches of neutrality committed and the provocations given by Turkey culminating in the unprovoked attack upon Russian harbours in the Black Sea, the hostile infringement of Egyptian territory by armed Turkish forces and the sinking of a British merchant vessel while lying in a friendly port. From these incidents it was clear that our patience was misunderstood, that a powerful party in Turkey, dominated by German influence, was bent on war, and that they meant to go on from outrage to outrage till war was provoked. These incidents finally led up to a declaration of war; but although they occurred on the 28th October, Sir Edward Grey, with that exceptional patience which has characterised the attitude of the Foreign Office in its relations with Turkey, informed Tewfik Pasha on the 4th November, when the British Ambassador had already three days earlier been recalled from Constantinople that, if his Government wished hostilities between the two countries to cease, the only chance was to dismiss the German naval and military missions and especially the officers of the *Goeben* and *Breslau*. It is clear from events that have since taken place in Constantinople, that the Turkish Government as a whole were not at all anxious for war, but according to information recently published in an official White Book, Enver Pasha told the Austrian Ambassador on the 22nd October that he was determined to have war whatever his colleagues might desire, that the Turkish fleet would be sent into the Black Sea, and that he could easily arrange with the German Admiral in command of the Turkish fleet to provoke hostilities. This cynical forecast is what actually took place six days later.

"I am well aware that many of the leading Moslem bodies in India have most loyally done their utmost to avert war with Turkey, and that the authorities in Constantinople have turned a deaf ear to their repeated representations. The fact remains that there is absolutely no reason for Turkish intervention in the war. The Allies have more than once given solemn assurances to respect the independence and integrity of Turkey and there is no menace to Islam. On the contrary the Allies have made a declaration of the immunity of the holy places of Arabia and Mesopotamia from attack, while the British Government have even declared that they are prepared, if any such need should arise, to defend them against all foreign invaders and to maintain them inviolate. The most striking commentary on the unnatural combination of Germany and Turkey is the fact that, while there are many thousands of Moslems fighting in the ranks of the British, French and Russian armies against Germany, not a single Moslem is to be found in the German ranks. It is no exaggeration to say that the military clique of Enver Pasha, under Germany's compulsion, has betrayed the interests of Islam and that the Turkish Government, in submitting to it, has abdicated its sovereignty and delivered the independence of a Mahomedan Empire into the hands of Germany. It will now rest with Turkey to face the consequences of these actions for which she is responsible; but however the tide of events may shape its course, there can be no doubt that the holy places will remain inviolate, and that Islam will still be one of the great world forces.

"From the very moment that the intervention of Turkey in the war appeared probable, it was clear that it was not to be expected that amongst Indian Moslems there would not be a natural sentiment of sympathy with a great Mahomedan Power. But when the character and motives of this war became fully known to, and realised by, the Moslems of India, whatever might have been the sympathy with which their religious instincts might under other circumstances have inspired them, any such sentiment was absolutely swept aside by their feeling of unswerving loyalty to the King-Emperor and to the British Empire, whose cause in this war they recognised to be that of freedom, honour and justice. The other great Indian communities have not been behindhand in their demonstrations of attachment to the Throne and Empire, and a towering wave of patriotism and loyalty has swept over India from shore to shore. It has been a source of gratification to me, but not of surprise, to witness the universal demonstrations of loyalty of all classes and creeds of the people of India. This has been yet one more of Germany's miscalculations which will bring about her ruin.

"As to the progress of the war I know no more than you. I give all the information that I receive to the press. It is clear, however, that German strategy has failed, and that the Allies are holding their own and gradually gaining ground, while German shipping and commerce have disappeared from the seas and the main German fleet has not dared to appear outside its harbours. What is particularly satisfactory to us all has been the splendid behaviour of the Indian troops at the front. No troops could have behaved more gallantly. This is recognised by all. We knew it could not be otherwise. It has also been a source of pride to us all that, in accordance with the news announced at the King-Emperor's Durbar, to Victoria Crosses have already been awarded to our brave Indian soldiers, this much-coveted decoration having, in one case, been bestowed by the hand of the King-Emperor himself.

"In my speech to this Council on the 8th September, I mentioned that it was a source of legitimate pride and satisfaction to India as a whole that we had been in a position to send a military force of over 70,000 combatants to fight for the Empire across the seas. Since I used those words we have

done much more than that; thanks to the energy and powers of organisation of His Excellency the Commander-in-Chief and the military authorities, British and Indian troops have been fighting side by side in no less than five theatres of war, in France, Egypt, East Africa, the Persian Gulf and in China. We have despatched or are despatching nearly 200,000 men overseas to fight for the Empire of which we are proud to be a living and virile unit. These have been relieved by a certain number of fresh troops from England. At the same time we have maintained our military forces on the frontier unimpaired to protect our line and to be ready, as a defensive force, to meet any emergency that may arise in that direction. We are all proud of our military forces and of their gallantry in the field, and I can only repeat what I have said before, namely, that the fact that the Government of India are in a position to help the mother country by the despatch of such a large proportion of our armed forces is a supreme mark of my absolute confidence in the fidelity and gallantry of our troops and in the loyalty of the Indian people. That confidence is being every day more and more justified.

"We may have days of depression and even reverses before us in the future, but we need feel no doubt as to the ultimate triumph of right over might and of civilisation over mediæval barbarism, and let us take to heart in such circumstances as these the noblest statement ever made of a nation's duty which English-speaking peoples owe to Abraham Lincoln, the great President of the United States. These are his words—

'With malice towards none; with charity to all; with firmness in the right as God gives us to see the right, let us strive on to finish the work we are in . . . . . to do all which may achieve and cherish a just and lasting peace.'

"Amongst the many drawbacks to which war on such a large scale must necessarily give rise the upward trend in the price of wheat has given me cause for anxiety. There seemed reason to believe that stocks were being held up in the expectation of a further rise in prices either in the foreign or the Indian market, and in view of the hardship involved to the consuming classes, I have issued an ordinance giving power to Government and to Local Governments to investigate the existence and amount of stocks, and if necessary to take over such as in their opinion are being unreasonably withheld. The question of further remedial measures has also been thoroughly examined at a Conference in Delhi with representatives of the wheat trade, who have co-operated readily with my Government in this matter. We were reluctant in the interests of agriculture and of numerous to prohibit altogether the export of wheat and flour from this country, and the information before us did not appear to indicate that there was sufficient actual shortage to justify this step. It has been decided therefore to restrict to a definite quantity, exports up to the end of the cold weather, by which time the new crop will be beginning to come in. The measures which have been taken have already checked any further rise in price, and in view of the excellent promise of the new harvest, I hope that the situation may improve.

"The cotton situation also, as you are aware, has been a matter of some anxiety, though I am glad to learn that it has recently shown some signs of improvement. The announcement which we made the other day has already informed you of the steps which we are prepared to take. We propose to advise a general restriction of cotton cultivation next season, and I hope that the expectation of such restriction will do something to assist the disposal of existing stocks. We are also prepared, by loans through the Presidency Banks, to help in securing the continuance of reasonable financial facilities not only for the cotton trade but also for other special trade interests which may be somewhat similarly affected. We have been very glad to intervene in this manner and so give evidence of our real desire to assist agriculture, trade and credit when we can legitimately and expediently do so. You will readily recognise, however, as the Conference of provincial and banking authorities which advised us in the matter also recognised, that we cannot embark on speculative and indefinite commitments. Our resources are very limited in comparison, for example, with those at the command of His Majesty's Government, and in these difficult times and with a most uncertain future ahead of us, we have to tread very warily.

"I should like to take this opportunity of paying a tribute to the manner in which the Press, both Indian and Anglo-Indian, has been conducted in the face of considerable difficulties during the past few months. It is common knowledge that in England and I may add in America, there has been a good deal of recrimination about the vagaries of the censorship, and I have reason to know that in India too there has been some irritation against that much abused person, the Censor. But the Press in India too has to a large extent recognised that his task is a hard one and have exercised moderation and patience, and to a large extent recognised that his task is a hard one and have exercised moderation and patience. Similarly these months have been a time when rumour has been busy with every kind of false report, and when it would have been easy to have done great mischief by giving wide publicity to idle tales in the columns of the daily papers. With a very few exceptions, to which I need not refer to detail, the Press of India has exercised wisdom, restraint and moderation, and I feel that we all owe to it an expression of gratitude.

"It has been suggested that the exceptions to which I have referred are sufficiently serious to demand a more drastic Press Law during this time of war, for at present no action can be taken against an offending paper until the mischief has been done; we are, however, opposed to taking any further powers in this direction unless the necessity is absolutely forced upon us, for the exceptions in the good conduct of the Press as a whole have not so far been sufficient to justify anything of the nature of a pre-censorship, and I for one should regard it as a grave misfortune if the errors of a few should bring a stigma upon the Press of India, which speaking generally has been wisely and loyally conducted during these difficult times.

"I now desire to invite the attention of Members of this Council to a matter of importance which immediately concerns the business of the present session. It is the desire of the Government of India that, so far as may be possible, the discussion of all controversial questions should be avoided during the continuance of the war. The present emergency necessitates the enactment of a particular measure to which I will refer later, and for obvious reasons the introduction of this Bill cannot be postponed. In regard, however, to legislation not immediately necessary to meet the requirements of the present situation, I and my Government consider that it would be most undesirable at this juncture, when the minds of all are concentrated on one object, the protection of the Empire against a ruthless

and powerful enemy, to undertake any legislation which might provoke anything approaching controversy and friction. The one feeling now prominent in the mind of every loyal citizen is the necessity for united action to vanquish the common enemy, and no part of the Empire has come forward more readily and enthusiastically than India to render assistance to His Majesty's Government. We may have different points of view as to methods of administration and as to details of domestic legislation, but in a time of common danger we should present an united front and it is clearly our duty to sink all minor differences and to seek and pursue but one object, the successful conduct of the war against the enemies of the British Empire. It is not that I think that the differences to which I have alluded are likely to be of a serious character, but I feel, and I hope you will agree with me, that this is a time when all appearance of division should be avoided, as such differences might be misconstrued by those who are strangers to Indian conditions. In this view we have decided to defer the consideration of a number of measures already introduced in Council, and to postpone the introduction of other Bills. Amongst these I may mention the Criminal Procedure Code Amendment Bill, the Bill for the further protection of Minors, the Bill dealing with Contempts of Courts, and the Universities Bill. We recognise the fact that, important as these Bills are, they are necessarily to some extent controversial, and in view of the present position, we have decided that it would be better not to proceed further with them during this session.

"I feel confident that the Council will approve of this decision, and I hope that you will support us in attaining the object in view by abstaining from moving any resolutions which might provoke controversy or bitterness, or embarrass the Government. In adopting this course, you will be following the example of the British Parliament where all political controversy has been suspended during the war, and where the leaders of the Opposition have refrained from any action which might embarrass the Government or add to the labours of Ministers already overburdened with work and responsibility. It has been felt in England, to use the words of Mr. Bonar Law in a speech delivered on 19th August, that controversial debate at such a time would be a national calamity. Although the position of Members of the Council is not in many ways analogous to that of Members of Parliament, yet I hope that, in this respect, they will treat the Government with like consideration. My Council has on various occasions been congratulated on the excellent traditions that it is building up for the future, and I hope and believe that this opportunity of adding to those traditions will not be lost.

"In connection with this question I think that I ought to mention one legislative measure which will come up for consideration to-day. This is the measure to which I referred in an earlier passage of my speech and is a Bill for prolonging the period of emergent provisions of the law now contained in certain ordinances recently passed. The Council is aware of the authority vested in the Governor-General personally to promulgate in times of emergency ordinances which have for a period of six months the force of laws passed in this Council. These powers have been infrequently exercised in the past. Indeed, I believe I am correct in saying that in all only seven ordinances were promulgated between the years 1861 and 1913, but the present emergency has shown how valuable these powers are, and since the outbreak of war, I have found it necessary to utilise them in respect of various matters of the gravest urgency. You will to-day be asked to co-operate with me by enacting a law which will render the provisions of these ordinances effective so long as the war lasts and for a certain period thereafter, as the cessation of conditions created by war will not synchronise with the declaration of peace. I trust that I shall receive the full and unanimous support of this Council in the enactment of this measure. Military and political considerations make it imperative that these emergent measures should continue to be in force and it is impossible for the Government to publish or discuss in detail the reasons underlying them without divulging facts of a confidential nature, the publication of which would not only embarrass the authorities in this country, but might also assist our enemies. In these circumstances I ask the Council to give practical proof of their loyalty and of their confidence in the Government by accepting the Bill as it stands without entering into a prolonged discussion of its merits."

STATEMENT LAID ON THE TABLE.

The Hon'ble Sir REGINALD CRADDOCK:—"My Lord, I beg to lay on the table a statement * showing province, for the years 1912 and 1913, the number of persons charged with murder, the number of capital sentences passed, the number of persons acquitted of the charge of murder, the number of appeals by Local Governments against such acquittals and the number of persons sentenced to death as a result of such appeals, which was promised in the reply given by me to the Hon'ble Mr. Dadabhoy's question on the subject asked at the meeting of the Legislative Council held on the 16th September 1914."

QUESTIONS AND ANSWERS.

The Hon'ble Mr. BANERJI asked:—

1. "(a) Has any memorial been addressed to the Government of India by Maulvi Muhorram Ali Chishti, a legal practitioner in the Punjab, on the subject of the rejection of his application to the Punjab Chief Court to be admitted as a pleader of the second grade?

(b) Will the Government be pleased to say whether they propose to make an inquiry into the statement made in that memorial and, if so, to lay on the table the result of such inquiry together with the papers in the case?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

"(a) The reply is in the affirmative.

(b) The matter is entirely within the discretion of the Judges of the Chief Court and the memorialist has been informed that the Government of India are unable to interfere on his behalf."

The Hon'ble Mr. BANERJI asked:—

2. "(a) Has the attention of the Government been drawn to a report which has appeared in the newspapers to the effect that the Government at home have offered to guarantee interest on £1,500,000 debenture Capital for the manufacture of synthetic dyes?

* Vide Appendix A, page 19 post.

(d) Is it a fact that the Government at home have offered substantial pecuniary help to some other industrial enterprises?

(e) Will the Government be pleased to state if they are prepared to follow the example of the Home Government in regard to selected industrial undertakings in this country? If so, will the Government be pleased to state what they propose to do?

The Hon'ble Mr. CLARK replied:—

"The answer to the first part of the question is in the affirmative. An official statement recently issued by the Board of Trade indicates that His Majesty's Government have taken action firstly, in order to make good the immediate shortage of dyes which, owing to the cessation of supplies from Germany, has been causing great apprehension in the textile trades and in other important British industries, and secondly, in order to guard against any recurrence of the same difficulty in future.

As regards the second part of the question, Government are not aware that the British Government have offered financial assistance for other industrial enterprises.

As regards the third part of the question, the Government of India have received no information which would suggest that His Majesty's Government have adopted a policy of affording financial assistance to industries, except in the special case and for the special reasons referred to above, and I have to point out that a similar situation has not arisen in India."

Supplementary question

The Hon'ble Mr. BANERJI asked:—

"Will the Hon'ble Member be good enough to obtain the information which he says is not available in certain matters?"

The Hon'ble Mr. CLARK replied:—

"I said,—'The Government of India have received no information which would suggest that His Majesty's Government have adopted a policy of affording financial assistance to industries.' I think no further inquiry would produce that information."

The Hon'ble Mr BANERJI asked:—

3. "Will the Government be pleased to state when they will issue their promised resolution on Local Self-Government?

The Hon'ble Sir HARCOURT BUTLER replied:—

"The Government of India hope that the Resolution may shortly be published."

The Hon'ble Mr BANERJI asked:—

4. "(a) Will the Government be pleased to state if it is the case that fourteen appointments have been made to the Indian Educational Service in nine months of 1914?

(b) If so, will the Government be pleased to state the reasons for making so many appointments?"

The Hon'ble Sir HARCOURT BUTLER replied:—

"(a) The names of 14 officers who have been appointed to the Indian Educational Service during 1914 are shown in the Civil Lists. As a matter of fact a larger number of officers has been appointed to this service during the year. The names of those who have recently joined have not yet been included in the Civil Lists.

(b) The reasons for making these appointments are educational expansion and the occurrence of vacancies in previously sanctioned posts."

The Hon'ble Mr. MALAVIYA asked:—

5. "Will the Government be pleased to state:—

(a) If a memorial has been submitted to the Government of India by Maulvi Muharram Ali Chishti, a legal practitioner of Lahore, complaining of the rejection of his applications to the Punjab Chief Court to be admitted as a pleader of the second grade?

(b) If it is a fact that between the years 1906 and 1909 the Punjab Chief Court encouraged Mr. Chishti to qualify himself as a pleader?

(c) If it is a fact that since the beginning of 1909, when Mr. Chishti had qualified himself for it, the Chief Court has rejected repeated applications made by him to be admitted as a pleader of the second grade?

(d) If it is also a fact that Mr. Chishti's licence to practise as a mukhtar has, at the same time, been renewed year after year without any objection?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

"The Honourable Member is referred to the answer given today to a similar question by the Hon'ble Mr. Surendra Nath Banerji.

It appears from the papers attached to Mr. Muharram Ali Chishti's memorial that he was given certain concessions in connection with his law examinations and that his applications to be recognised as a pleader of the second grade were rejected on more than one occasion.

The Government of India have no information as regards the renewal of his licence as a mukhtar."

The Hon'ble Raja KRISHNAPAL SINGH asked:—

6. "Has the attention of Government been drawn to the article headed "More practical education," which is published on page 10 of the *Pioneer* of the 8th October 1914? Will the Government be pleased to state what sums have been allotted by the Government of various major provinces for experimenting with school gardens and with the organization of excursions?"

The Hon'ble Sir HARCOURT BUTLER replied:—

"The Government of India have observed the article mentioned. Reports and statistics do not ordinarily show the amounts allotted by Governments of various major provinces for experimenting

with school gardens and for the organisation of excursions. The following facts, however, may prove of interest to the Honourable Member :—

"(i) The Government of India are anxious to encourage practical and visual instruction. Attention is invited to the Government of India Resolution No. 301-C.D., dated the 21st February 1913, paragraphs 4 (2), 11 (*x*), 22 (*x*) and 34.

"(ii) The Government of India have at various times addressed Local Governments regarding the provision of lanterns and slides, and in 1907 they provided sets of slides. A reference may be made to paragraph 234 of No. 1 of the Occasional Reports published by the office of the Director-General of Education in India, called *Rural Schools in the Central Provinces*. It is understood that there is now considerable activity in provinces in this matter. Attention is invited to paragraph 693 of the Sixth Quinquennial Review of the Progress of Education in India, to paragraphs 31, 44 and 49 of the report of Director of Public Instruction in Bombay for 1913–14, and to paragraph 28 of the report for Bengal.

"In some provinces, schools are provided with gardens wherever possible. An account of the nature and intention of such gardens is to be found in section X of *Rural Schools in the Central Provinces*. Attention is also invited to paragraphs 25 and 28 and page 12 of the reports of the Directors for 1913–14 in Bombay, Bengal and the United Provinces, respectively. Gardens were selected as one of the objects for which the Government of India recently gave a non-recurring grant of Rs. 24,00,000.

"There are numerous allusions to excursions made by schools in the report of the Director of Public Instruction in Bombay for 1913–14. Paragraph 38 of the report speaks of grants of Rs. 500 each to high schools for this purpose. The Indian Museum in Calcutta is being used for educational purposes.

"The Government of India made in 1913 grants for manual training totalling 7 lakhs of rupees capital and 1 lakh recurring. Attention is invited to the following passages in the reports of Directors of Public Instruction for 1913–14, in various provinces :—Madras, paragraph 2 of the report; Bombay, paragraph 128; Bengal, paragraph 32; United Provinces, page 8; and Burma, page 24."

The Hon'ble Raja KUSHALPAL SINGH asked :—

7. "Will the Government be pleased to lay on the table a statement giving the salaries of munsifs and subordinate judges in all major provinces of India?"

The Hon'ble Sir REGINALD CRADDOCK replied :—

"A statement * giving the desired information is laid on the table."

The Hon'ble Raja KUSHALPAL SINGH asked :—

8. "Has the attention of Government been drawn to letter which Mr. Abdulla Ibn Yusuf Ali has written on the subject of 'Indian Soldiers and Indian Umrars,' and which is published in the *Pioneer* of the 9th November 1914? Will the Government be pleased to consider the desirability of making the concessions suggested therein?"

The Hon'ble Sir REGINALD CRADDOCK replied :—

"The whole question is at present under the consideration of the Government of India who hope to be in a position to take action shortly."

The Hon'ble Raja KUSHALPAL SINGH asked :—

9. "Will the Government be pleased to say whether they propose to place on the table a copy of the proceedings of the Cotton and Wheat Conferences held at Delhi?"

The Hon'ble Mr. CLARK replied :—

"Government regret that they are unable to lay reports of these Conferences on the table, as the proceedings were of a confidential nature. The decision arrived at by Government as a result of the discussion at the Wheat Conference formed the subject of a press communiqué issued on the 28th December last. As regards the Cotton Conference, a communiqué was also issued to the Press a few days ago indicating broadly the views in regard to the cotton question which were elicited at the Conference and publishing the decisions at which the Government of India have arrived."

The Hon'ble Raja KUSHALPAL SINGH asked :—

10. "(a) Has the attention of Government been drawn to the Resolution No. IV passed at the meeting of the fifth Hindi Literary Conference held at Lucknow?

(b) Will the Government be pleased to say whether they propose to draw the attention of the Universities of Allahabad and the Punjab to the desirability of introducing the study of the vernacular languages into colleges as soon as practicable?"

The Hon'ble Sir HARCOURT BUTLER replied :—

"(a) The Government of India have not seen the resolution referred to.

"(b) The matter would be more appropriately referred to the Local Governments concerned than to the Government of India."

The Hon'ble Maharaja RANAJIT SINHA of Nashipur asked :—

11. "Is it a fact that some inconvenience might result from holding a general election for the return of members to the Local and the Imperial Councils in the middle of the winter sessions? If so, do Government propose to change the rules so as to provide that the date fixed for general election shall be after the close of the sessions?"

The Hon'ble Sir REGINALD CRADDOCK replied :—

"The Government of India are aware that the present date for the expiry of the three years' term of the elected members of the Imperial and Provincial Legislative Councils may cause inconvenience, and are at present considering, in consultation with Local Governments and Administrations, how the difficulty can best be met."

The Hon'ble Maharaja RANAJIT SINHA of Nashipur asked :—

12. "Is it a fact that the Government invited the opinion of the Local Governments as to the desirability of prohibiting the payment of the travelling and halting expenses of members of Municipalities and Local and District Boards attending meetings of voters for the purpose of electing their

* Not published.

representatives on the local Legislative Councils? If so, will the Government be pleased to state their final decision in the matter?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

"The Government of India addressed the Local Governments and Administrations concerned on the question whether the payment or offer of payment of the travelling expenses of voters by candidates for election to the various Provincial Legislative Councils should be definitely prohibited. Their replies have been received and the matter is under the consideration of the Government of India."

The Hon'ble Maharaja RANAJIT SINHA of Nashipur asked:—

13. "Is it a fact that the river Jumna does not remain navigable throughout the year? If so, do Government propose to dredge it so as to keep it navigable from Delhi to Allahabad all the year round?"

The Hon'ble Sir ROBERT CARLYLE replied:—

"(a) The answer to the first part of the question is in the affirmative.

"(b) In regard to the second part of the question, Government do not propose to undertake dredging operations in order to maintain a navigable channel in the river Jumna throughout the year between Delhi and Allahabad. Dredging alone would be ineffective for the purpose and the extensive works which would be necessary would involve expenditure out of all proportion to the resulting benefits."

The Hon'ble Maharaja RANAJIT SINHA of Nashipur asked:—

14. "(a) Have the Government of India received information that cattle in British India have deteriorated in recent years?

"(b) If so, is it a fact that want of grazing grounds is one of the causes of the deterioration of cattle?

"(c) If so, do the Government propose to arrange for common grazing grounds in each village?"

The Hon'ble Sir ROBERT CARLYLE replied:—

"On the reports received from Local Governments, it is impossible to decide whether taken as a whole Indian cattle have deteriorated of recent years. In some localities deterioration is believed to have taken place and one of the causes to which this has been attributed is the want of sufficient pasturage. On the other hand, in one province at least, it is stated that with any system of communal grazing the quality of the stock cannot be maintained.

"The improvement of the fodder supply whether by the provision of additional grazing grounds or in any other manner is a matter for Local Governments; but I may mention that the whole question was considered by the Board of Agriculture at its last meeting. Stress was laid on the fact that as the problems to be attacked were essentially of a local character which must be worked out from the point of view of particular localities, nothing more than very general recommendations could be made. Among the recommendations it was suggested that in each province investigations should be made regarding the existing sources of fodder supply and their utilisation to the best advantage. Local Governments have accordingly been requested by the Government of India to institute such inquiries in order that the subject may further be considered by the Board of Agriculture at its next meeting. When the final recommendations of the Board are received they will receive careful attention as the Government of India are fully alive to the great importance of this question. It must, however, be realized that the provision of additional pasturage is only one aspect of a problem which is essentially local in character and which each Local Government must endeavour to solve with due regard to local conditions."

The Hon'ble Raja ABU JAFAR asked:—

15. "Would the Government be pleased—

"(a) to state which of the Indian Universities appoint moderators for the examination papers, and

"(b) to state whether they propose to recommend the adoption of a similar system to such Universities as have no moderators?"

The Hon'ble Sir HARCOURT BUTLER replied:—

"(a) The Regulations of all the Indian Universities except the University of Madras make provision for the appointment of moderators.

"(b) The reply is in the negative."

The Hon'ble Raja ABU JAFAR asked:—

16. "Has the Government finally allowed the Agra Estates Bill and the Agra Settled Estates Bill to be laid before the United Provinces Legislative Council? Are these Bills to be consolidated? When are they likely to be introduced in the United Provinces Legislative Council?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

"Correspondence relative to the Agra Estates and the Agra Settled Estates Bills has passed between the Government of India and the Local Government, and an expression of the final views of the latter is awaited. Pending the consideration of it no more definite statement can be made."

The Hon'ble Raja ABU JAFAR asked:—

17. "Have the Home Government and other European States strictly prohibited any abnormal rise in the price of edibles, and, if so, what steps have been taken by such countries to enforce such prohibition?"

The Hon'ble Mr. CLARK replied:—

"So far as the Government of India are aware His Majesty's Government have not prohibited increase of prices of foodstuffs, but they have taken powers by Act of Parliament enabling the Board of Trade to take possession, subject to compensation, of such articles of commerce as they consider to be unreasonably withheld from the market. It is not known whether any action has been taken in pursuance of these powers.

"The Government of India have no official information regarding action taken by other European States with a view to prevent an abnormal rise in the price of foodstuffs. It has, however, been stated in the Press that the German Government have fixed maximum prices in respect of certain articles of consumption."

The Hon'ble Mr. ABAD ALI asked :—

18. "Will Government be pleased to state what steps have been taken during the last two years in each of the Indian provinces to promote free elementary education amongst the poorer classes in general and Mussalmans in particular ?"

The Hon'ble Sir HARCOURT BUTLER replied :—

"The Hon'ble Member is referred to the Provincial reports on Public Instruction. With a view to supplementing the information contained in these reports, inquiries will be made from Local Governments and the result will be laid on the table."

The Hon'ble Mr. ABAD ALI asked :—

19. "With reference to my question (8th September 1914) regarding the provincial educational grants to Muhammedan education, have the Government obtained information on the subject, and, if so, will they please lay it on the table?"

The Hon'ble Sir HARCOURT BUTLER replied :—

"The Government of India have not yet received replies from all Local Governments."

The Hon'ble RAJA KUSHALPAL SINGH asked :—

20. "Has the attention of Government been drawn to the letter headed "The Case of Indian Cotton," which is published on page 9 of the *Pioneer* of the 1st October 1914? Will the Government be pleased to state what action, if any, they propose to take in the matter?"

The Hon'ble Mr. CLARK replied :—

"The attention of Government has been drawn to the letter referred to. The action which Government proposes to take with reference to the cotton situation is summarised in the Press Communiqué * of the 5th instant, a copy of which is laid on the table."

The Hon'ble RAJA ABU JAFAR asked :—

21. "Will the Government be pleased to state how much (if any) grain has, since the promulgation of the recent Articles of Commerce Ordinance, 1914, been brought into the open market as the result of the exercise of powers conferred on Government by the Ordinance?"

The Hon'ble Mr. CLARK replied :—

"So far as the Government of India are aware, no grain has as yet been brought into the open market as a result of the exercise of powers conferred by the Articles of Commerce Ordinance. Local Governments are, however, fully aware of their powers under the Ordinance and will doubtless exercise them should necessity arise. It is understood that returns under the Ordinance have already been called for in certain districts."

The Hon'ble RAJA ABU JAFAR asked :—

22. "(*a*) Is it a fact that the indigo industry in India has been nearly destroyed by the free importation of German chemical dyes?

(*b*) Would the Government be pleased to state whether they propose to afford some protection or encouragement to the indigo industry?"

The Hon'ble Sir ROBERT CARLYLE replied :—

"Natural indigo has undoubtedly suffered severely from competition with the synthetic product and the Government of India are at present considering to what extent and in what manner assistance can be rendered to growers of indigo. To enable them to come to a decision it has been arranged to hold a conference shortly in Delhi."

The Hon'ble RAJA ABU JAFAR asked :—

23. "(*a*) Is it a fact that the present war or false rumours connected with the war have caused an abnormal rise in the price of grains?

(*b*) If so, what steps (if any) do the Government propose to take with respect to such abnormal rise?"

The Hon'ble Mr. CLARK replied :—

"(*a*) The price of grains has risen in parts of India as a result of tendencies connected with the outbreak of war.

"(*b*) On the analogy of measures taken in the United Kingdom, the Governor-General promulgated the Articles of Commerce Ordinance IX of 1914, on the 30th of November last. The Ordinance empowers the Governor General in Council, for the whole or any part of British India, and each Local Government for the whole or any part of the Province, to require any owner or owners of any article of commerce to give full information regarding stocks in his or their possession. The Governor General in Council and Local Governments are further empowered to notify any article of commerce which appears to be unreasonably withheld from the market and to take possession, on payment of compensation, of stocks of any article unreasonably withheld. The Government of India have not yet exercised their powers under the Articles of Commerce Ordinance. Local Governments will doubtless exercise their powers under the Ordinance should necessity arise, and it is understood that action has already been taken in certain districts.

"A supplementary measure calculated to prevent an abnormal rise in the price of wheat has been the issue of a statutory notification restricting the export of wheat and wheat flour from British India before 1st April to a total amount of 75,000 tons. By this means it is hoped to ensure an approximation of the Indian supply to the Indian demand, and to guard against the danger of any reduction in the local price of wheat merely leading to increased exports."

The Hon'ble RAJA ABU JAFAR asked :—

24. "Will the Government be pleased to state whether the exports since August 1914 to the end of December 1914 have increased or decreased in comparison with the corresponding five months of 1913, and with the five months preceding the present war, *i.e.*, from March 1914 to the end of July 1914?"

The Hon'ble Mr. CLARK replied :—

"A statement * giving the information desired by the Honourable Member is laid on the table. It will be observed that the value of exports during the five months, August to December 1914, is less

* Not published.

than that recorded for the corresponding months of 1913 and less also than that of exports during the five months, March to July 1914."

The Hon'ble RAJA ARU JAYAN asked :—

21. "Have any of the different local administrations reserved for the land-owning class any specified number of appointments in the executive departments, and if so, will the Government be pleased to state which Local Governments have reserved such posts and in what proportion?"

The Hon'ble Sir REGINALD CRADDOCK replied :—

"The rules current in the United Provinces for the selection of members of the Provincial Executive Service make mention, among other qualifications, of that of being connected with the important land-owning classes, and it is understood that ordinarily a certain proportion of the appointments made are of candidates of this description. A similar reservation does not appear to be made elsewhere here in the cases of other Provincial Executive Services."

THE FOREIGNERS (AMENDMENT) BILL, 1914.

The Hon'ble Sir REGINALD CRADDOCK :—"My Lord, I beg to move that the Bill to amend the Foreigners Act, 1864, be referred to a Select Committee consisting of the Hon'ble Sir Ali Imam, the Hon'ble Sir William Vincent, the Hon'ble Mr. Wheeler, the Hon'ble Sir Ibrahim Rahimtoola, the Hon'ble Mr. Rayaningar, the Hon'ble Mr. Dadabhoy and myself."

The motion was put and agreed to.

THE EMERGENCY LEGISLATION CONTINUANCE BILL, 1915.

The Hon'ble Sir ALI IMAM :—"My Lord, I beg to move for leave to introduce the Emergency Legislation Continuance Bill. I do not propose to take up the time of the Council for any considerable period in explaining its provisions, which are very brief. Your Excellency has already informed the Council that since the outbreak of the war you have found it necessary to exercise the powers conferred on you by section 23 of the Indian Councils Act of 1861 and to issue Ordinances conferring the necessary powers on the Government to deal with an emergency which is almost unparalleled in the history of the Empire. For the first time for a hundred years the great British Empire is involved in a war of world magnitude and it is obvious that the provisions of our ordinary legislation must necessarily require to be supplemented in order to meet such a situation. That situation still continues, and with it the necessity for special emergency legislation. We have, therefore, to find means for prolonging the duration of the provisions of that legislation. As the Council is aware, ordinances promulgated under section 23 of the Indian Councils Act of 1861, although they have the same force as Acts of the Council, are limited in point of time to a duration of six months. The question, therefore, came before me in what way this duration should be extended. It is possible that it might be done in several ways, but in my judgment, and I hope Council will agree with me, it has been rightly thought better on this occasion to proceed by inviting the co-operation of the Council in securing that end. This is sought to secure by the Bill for which I am asking leave to introduce. It is very short and merely gives the effect of a law made by this Council to the provisions of the ordinances specified in the schedule. We have limited its duration to the period of the present war and six months thereafter. It is clear that on the actual termination of hostilities it will be necessary to review our legal position, and subsidiary action may in several instances be necessary before we terminate the condition of affairs created by this emergency legislation. Apart from legal questions, some prolongation will also be necessary on administrative grounds. We have, however, taken power in the Bill for the Governor General in Council to withdraw at any earlier date any of the provisions which the changing fortunes of war may render possible. The provisions I am asking Council to continue in our law are far less drastic than those conferred on the authorities in England who have obtained the most extensive and wide-reaching powers from Parliament, powers which have been granted with a free hand and without a murmur. Regard being had to the grave emergency with which the Government of India were confronted on the 4th of August, 1914, it is to me a great satisfaction, speaking purely as a lawyer, that so far it has been found possible to protect the peace and tranquillity of this great country with so little disturbance to the rights and liberties of individual citizens. When war was raging at our very door (for the German Navy brought it there on one occasion, happily not likely to occur again) the maxim *inter arma leges silent* might well have been applied, and I must congratulate my colleagues of the Executive Council in that under the wise, beneficent and statesmanlike guidance of Your Excellency they have found it possible to carry on the great burden of responsibility which rested on them with the addition of comparatively little to our statute-book to show the magnitude of the crisis. I must also congratulate my countrymen on their whole-hearted co-operation in making this course possible, and I hope and trust that we may reach the end of a victorious war with no deviation from the same course. I do not propose to deal with the provisions of the ordinances themselves. They have been published in the Gazettes and are well known to the country. It is not for me to speak of the policy which lies behind them, but a Government which in war time has been able to carry on its normal administration with the addition of a few regulations as to military censorship, impressment of vessels, control of foreigners, restriction on alien enemies, control and supervision of persons entering India after the outbreak of the war, financial dealings with aliens, and powers as to stocks of articles of commerce cannot be criticised as having selected its weapons from the ample armoury of possible enactments either rashly or unnecessarily. My Lord, I now beg to move for leave to introduce the Bill."

The motion was put and agreed to.

The Hon'ble Sir ALI IMAM :—"I beg to introduce the Bill to continue in force the provisions of certain Ordinances.

"I also pray that Your Excellency be pleased to suspend the Rules of Business to admit of the Bill being taken into consideration."

The PRESIDENT :—"I declare the Rules suspended."

The Hon'ble Sir ALI IMAM :—"I move that the Bill to continue in force the provisions of certain Ordinances be taken into consideration."

The motion was put and agreed to.

The Hon'ble Sir ALI IMAM :—"I move that the Bill to continue in force the provisions of certain Ordinances be passed."

The motion was put and agreed to.

The Council adjourned to Tuesday, the 23rd February 1915.
